Bleaching may be necessary to remove traces of some stains.

Stain Removal Agents

Stain and soil removal is the primary reason consumers bring their garments to you, so you need products that effectively remove as many stains as possible without removing dye or damaging the fabric. Street's full line of stain removal agents safely and effectively treat just about any stain you may encounter.

	YOU NEED TO REMOVE...	THE PRODUCT...	BENEFITS...
DRY-SIDE	 ...surface soil picked up during processing, light ink, grease, and paint.	Picrin® <i>The Dry-Side Essential™</i> ...a volatile dry-side stain remover.	<ul style="list-style-type: none"> ❑ Dissolves solvent-soluble components of many dry-side stains ❑ Flushes dry-side spotting chemicals, eliminating rings ❑ Ideal for touch-up spotting, after cleaning ❑ Safe to fabrics and dyes
	 ...tough stains like paint, tar, oil, grease, lipstick, lacquer and nail polish.	Pyratex® <i>For the Tough Stains™</i> ...an oily-type dry stain remover.	<ul style="list-style-type: none"> ❑ Contains quick cutting solvents to dissolve tough stains like grease and tar ❑ Prevents the spreading of dyes ❑ Lubricates and suspends soil, preventing redeposition
	 ...difficult stains when high flash point, easy rinsing, low odor, and less aggressiveness to textile dyes are a priority.	Pyratex® NuTec™ <i>For Today's Tough Stains™</i> ...replaces POGs and & OTRs for dry-side stains.	<ul style="list-style-type: none"> ❑ Removes difficult stains like cosmetics and grease ❑ Flushes easily and completely, using Picrin® for perc systems, or DF-2000™ Fluid for HFHC systems ❑ Higher flash point than that of high flash drycleaning solvents ❑ Formulated to minimize odor
	 ...general soiling on delicate fabrics like rayon, silk, linen, cotton or wool.	SOFSPOT® <i>Gets the Soil, Preserves the Garment™</i> ...a stain remover for treating stains on silk and other sensitive fabrics.	<ul style="list-style-type: none"> ❑ Fast removal of water-soluble stains without damaging fabrics or dyes ❑ Controls fabric moisture while minimizing dye bleeding ❑ Pre-spot with SOFSPOT and deliver more stain-free garments, preventing costly re-runs
	 ...dry-side and wet-side stains at the same time.	2-1 Formula® <i>The Versatile Combination™</i> ...a combination wet/dry stain remover.	<ul style="list-style-type: none"> ❑ Attacks both water-soluble and solvent-soluble stains ❑ Effective on imbedded soil on collars, cuffs and hemlines ❑ Fast and effective removal of latex paint ❑ Removes light paint, oil and grease
	 ...paint, oil, and other oily type stains that can be used with and/or rinsed with water.	AquaSOLV™ <i>Solves Oily Stain Problems in Water™</i> ...a water rinsable oily-type stain remover.	<ul style="list-style-type: none"> ❑ Delivers concentrated penetrating power ❑ Great for combination stains ❑ Versatile and safe for all fabrics ❑ Helps prevent time consuming re-cleans
	 ...seemingly impossible stains like chocolate, gravy and ice cream.	Devour® <i>For the Untouchables™</i> <i>Removes the Most Difficult Protein Stains</i> ...a liquid stain digester.	<ul style="list-style-type: none"> ❑ High performing, rapid removal of seemingly impossible stains ❑ No spatula or brushing required ❑ Economical because it is concentrated ❑ Can be used full strength, in a soaking tub, or in the laundry wheel
WET-SIDE	 ...difficult tannin and caramelized sugar stains.	General Formula 209® ...removes the most difficult tannin stains.	<ul style="list-style-type: none"> ❑ Aggressive action on caramelized sugar and other tough tannin stains ❑ Also removes writing ink and last traces of lipstick stains ❑ Safe and effective on fabrics and dyes
	 ...water soluble stains quicker and more effectively.	Mulsolite® <i>Puts Water to Work™</i> ...a neutral lubricant.	<ul style="list-style-type: none"> ❑ Speeds water soluble stain removal ❑ Safe to material and dyestuff ❑ Versatile for all wet-side spotting operations ❑ Can be used in a soaking bath to remove last traces of lipstick
	 ...undesirable odors.	ODOREX™ <i>Eliminates Odors...For Good!™</i> ...an odor eliminator.	<ul style="list-style-type: none"> ❑ Permanently entraps odors ❑ Makes pressing and stain removal more pleasant ❑ Improves customer satisfaction ❑ Can be used in a spray application
	 ...frequently encountered stains like blood, food, milk and perspiration.	StreePRO® <i>Safest for Protein Stains™</i> ...a stain remover designed for fast, safe, and effective removal of protein stains.	<ul style="list-style-type: none"> ❑ Safe to dyes and fabrics ❑ Reduces time spent at the spotting board ❑ Effectively removes last traces of ink stains when used alternately with StreeTAN
	 ...coffee, beer, grass, liquor, mustard and other common stains.	StreeTAN® <i>Safest for Tannin Stains™</i> ...a stain remover designed for fast, safe, and effective removal of tannin stains.	<ul style="list-style-type: none"> ❑ Safe to dyes and fabrics ❑ Reduces time spent at the spotting board ❑ Effectively removes last traces of ink stains when used alternately with StreePRO
	 ...general to heavy soiling on necklines, underarms, collars and cuffs.	STREETEX® <i>Get It Clean the First Time™</i> ...a pre-spotter for commonly soiled areas.	<ul style="list-style-type: none"> ❑ Works faster to remove water soluble soils and stains ❑ Eliminates the risk of rings left on garments by other wet spotters ❑ Can effectively treat an entire load of heavily soiled garments
	 ...last traces of dye from stains.	Ready-Strip™ <i>Makes Dye Disappear™</i> ...a titanium stripper for dye removal.	<ul style="list-style-type: none"> ❑ Odorless ❑ Safe on nonmetallic fabrics and colored garments ❑ Remains stable even at boiling temperature ❑ Will not over whiten white fabrics
BLEACHES	 ...stains and dyes from all-white garments.	Streepene® <i>For Controlled Bleaching Action™</i> ...a stain removal agent for controlled stripping, bleaching, or color reduction.	<ul style="list-style-type: none"> ❑ Maximum efficiency for controlled stripping or bleaching action ❑ Removes last traces of coffee, beer, dye, or lipstick stains on all-white garments ❑ Can be mixed with water to be applied as a liquid
