World Amenities

Safety Data Sheet

1 Identification of the substance/mixture and of the company/undertaking

· Product details

Trade Name: Argan Oil Touch Soap
 Article number: Not available.

· Application of the substance/the preparation: For body cleaning during bathing/showering

Manufacturer: World Amenities

Address: 8260 Camino Santa Fe, Suite A, San Diego, CA 92121

Tel: 619-276-7660 Fax: 619-276-7661

· Information in case of emergency:

3 Hazards identification

Hazard description: Not applicable.

Information pertaining to particular dangers for man and environment:

The product is not classified as dangerous according to OSHA Hazard Communication Standard (29 CFR 1910.1200).

· Classification system:

The classification is according to the latest edition of OSHA Hazard Communication Standard (29 CFR 1910.1200), and extended by company and literature data

· NFPA ratings (scale 0 - 4)

· HMIS-ratings (scale 0 - 4)

4 First aid measures

- · After inhalation: Supply fresh air, consult with doctor in case of complaints.
- · After skin contact: Immediately wash with water and soap and rinse thoroughly.

After eye contact:

Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

After swallowing:

Rinse out mouth with water. If symptoms persist, consult a doctor.

5 Firefighting measures

Suitable extinguishing agents:

CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.

Protective equipment:

Wear fully protective suit.

Mouth respiratory protective device.

6 Accidental release measures

Person-related safety

precaution: Ensure adequate

ventilation.

Avoid formulation of

dust

Mount respiratory protective device.

- Measures for environmental protection: Do not allow to enter sewers/surface or ground water.
- Measures for cleaning/collecting: Pick up mechanically.

7 Handling and storage

Handling:

Information for safe handling: Keep receptacles tightly sealed.

Keep away from heat and direct sunlight. Ensure good ventilation/exhaustion at the

workplace. Prevent formulation of dust.
Information about protection against explosions and fires: Normal measures for preventive fire protection.

Storage:

Requirements to be met by storerooms and receptacles: Store in a cool location

Information about storage in one common storage facility: Store away from foodstuffs: Further information about storage conditions: Store in cool, dry conditions in well sealed receptacles.

8 Exposure controls and personal protection

· Additional information about design of technical systems: No further data; see item 7.

- Additional information: The lists that were valid during the creation were used as basis
- · Based on the composition shown in section 2, the following measures are suggested for occupational safety measures
- · Personal protective equipment
- General protective and hygienic measures:

The usual precautionary measures for handling chemicals should be followed

- Breathing equipment: Suitable respiratory protective device recommended.
- Protection of hands:

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

Due to missing tests no recommendation to the glove material can be given for the product/the preparation/the chemical mixture.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

Material of gloves:

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material cannot be calculated in advance and has therefore to be checked prior to the application.

· Penetration time of glove material:

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

· Eye protection:

possible.

- on the eye: Irritating effect possible.
- Sensitization: Sensitization possible.
- Additional toxicologicalinformation:

The product is not subject to classification according to internally approved calculation methods for preparations.

When used and handled according to specifications, the product does not have any harmful effects according to our experience and the information provided to us.
