Section 1. Chemical product and company identification

Trade name: SOLID SUMMIT
Product use: Laundry detergent
Supplier: Ecolab Inc. Textile Care Division
            370 N. Wabasha Street
            St. Paul, MN 55102
            1-800-553-8683
Code: 983304
Date of issue: 14-November-2005

EMERGENCY HEALTH INFORMATION: 1-800-328-0026
Outside United States and Canada CALL 1-651-222-5352 (in USA)

Section 2. Composition, Information on Ingredients

Section 3. Hazards identification

Physical state: Solid (Cast Solid)
Emergency overview: WARNING!

CAUSES SEVERE EYE AND SKIN IRRITATION.
Untreated contact may cause severe irritation or chemical burns.
HARMFUL IF SWALLOWED.
Do not ingest. Do not get in eyes, on skin or clothing. Avoid breathing dust. Keep container closed. Use only with adequate ventilation. Wash thoroughly after handling.

Potential acute health effects

Eyes: Severely irritating to the eyes. Untreated contact may cause chemical burns.
Skin: Severely irritating to the skin. Untreated contact may cause severe irritation or chemical burns.
Inhalation: No known significant effects or critical hazards.
Ingestion: Harmful if swallowed. Causes burns to mouth, throat and stomach.
See toxicological Information (section 11)

Section 4. First aid measures

Eye contact: In case of contact, immediately flush eyes with cool running water. Remove contact lenses and continue flushing with plenty of water for at least 15 minutes. Get medical attention immediately.

Skin contact: In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Wash clothing before reuse. Thoroughly clean shoes before reuse. Get medical attention immediately.

Inhalation: If inhaled, remove to fresh air.
Ingestion: Rinse mouth; then drink one or two large glasses of water. Do not induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention immediately.
Section 5. Fire fighting measures

Flash point: > 100°C
Product does not support combustion.

Fire fighting media and instructions: Use an extinguishing agent suitable for surrounding fires.
Dike area of fire to prevent product run-off.
No specific hazard.

Special protective equipment for fire-fighters: Fire fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full facepiece operated in positive pressure mode.

Section 6. Accidental release measures

Personal precautions: Ventilate area of leak or spill. Do not touch damaged containers or spilled material unless wearing appropriate protective equipment (Section 8). Stop leak if without risk. Prevent entry into sewers, water courses, basements or confined areas.

Environmental precautions: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.
Methods for cleaning up: If emergency personnel are unavailable vacuum or carefully scoop up spilled materials and place in an appropriate container for disposal. Avoid creating dusty conditions and prevent wind dispersal.

Section 7. Handling and storage

Handling: Do not ingest. Do not get in eyes, on skin or on clothing. Keep container closed. Use only with adequate ventilation. Avoid breathing dust. Wash thoroughly after handling.
Storage: Keep out of the reach of children. Keep container tightly closed. Keep container in a cool, well-ventilated area.
Do not store above 50°C

Section 8. Exposure Controls, Personal Protection

Engineering controls: Good general ventilation should be sufficient to control airborne levels.

Personal protection

Eyes: Due to the form and packaging of the product, no protective equipment is needed under normal use conditions.

Hands: Due to the form and packaging of the product, no protective equipment is needed under normal use conditions.

Skin: Due to the form and packaging of the product, no protective equipment is needed under normal use conditions.

Respiratory: No protective equipment is needed under normal use conditions.

Name: sodium hydroxide

Exposure limits

OSHA PEL (United States, 8/1997).
TWA: 2 mg/m³ 8 hour(s). Form: All forms
ACGIH TLV (United States, 1/2004).
CEIL: 2 mg/m³

Section 9. Physical and chemical properties

Physical state: Solid. (Cast Solid)
Color: Blue.
Odor: Ammoniacal.

pH: 13.1 (1%)
Boiling/condensation point: >100 °C
Solubility: Soluble in hot water.
Partially soluble in cold water.
Section 10. Stability and reactivity

<table>
<thead>
<tr>
<th>Stability</th>
<th>The product is stable.</th>
</tr>
</thead>
</table>
| Reactivity         | Highly reactive with acids.  
|                    | Reactive with metals.  
|                    | Slightly reactive to reactive with moisture. |

Section 12. Ecological information

Products of degradation

These products are carbon oxides (CO, CO₂) and water, nitrogen oxides (NO, NO₂, ...), phosphates. Some metallic oxides.

Section 13. Disposal considerations

Waste disposal

The generation of waste should be avoided or minimized wherever possible. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements.

Waste classification

Unused product is D002 (Corrosive)

Consult your local or regional authorities.
