Material Safety Data Sheet

MEDALLION

Section 1. Chemical product and company identification

| Trade name | MEDALLION |
| Product use | Metal Polish |
| Supplier | Ecolab Inc. Institutional Division  
370 N. Wabasha Street  
St. Paul, MN 55102  
1-800-352-5326 |
| Code | 998690 |
| Date of issue | 02-June-2005 |

EMERGENCY HEALTH INFORMATION: 1-800-328-0026  
Outside United States and Canada CALL 1-651-222-5352 (in USA)

Section 2. Composition, Information on Ingredients

Section 3. Hazards identification

Physical state | Liquid. (Liquid.) |
Emergency overview | WARNING! |

CAUSES EYE AND SKIN IRRITATION.  
HARMFUL IF SWALLOWED.  
COMBUSTIBLE LIQUID AND VAPOR.  
VAPOR MAY CAUSE FIRE.  
Aspiration hazard if swallowed- can enter lungs and cause damage.  
Can cause CNS depression.  
Do not ingest. Avoid contact with skin and clothing. Keep away from heat, sparks and flame. Keep container closed. Use only with adequate ventilation. Wash thoroughly after handling.

Potential acute health effects

Eyes | Irritating to eyes.  
Skin | Irritating to skin.  
Inhalation | High vapor concentrations can cause headaches, dizziness, drowsiness, and nausea, and may lead to unconsciousness.  
Ingestion | Harmful if swallowed. Aspiration hazard if swallowed- can enter lungs and cause damage.  
See toxicological Information (section 11)

Section 4. First aid measures

Eye contact | In case of contact, immediately flush eyes with cool running water. Remove contact lenses and continue flushing with plenty of water for at least 15 minutes. Get medical attention if irritation persists.  
Skin contact | Wash with soap and water. Get medical attention if irritation occurs. Wash clothing before reuse.  
Inhalation | If inhaled, remove to fresh air.  
Ingestion | Rinse mouth; then drink one or two large glasses of water. Do not induce vomiting. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Never give anything by mouth to an unconscious person. Get medical attention immediately.
Section 5. Fire fighting measures

Flash point : 79.4444 °C (Closed cup)
Fire fighting media and instructions : In case of fire, use water spray (fog), foam, dry chemicals, or CO₂. Dike area of fire to prevent product run-off.

Combustible liquid and vapor. May burn, but does not ignite readily. Under high temperatures or under moderate heating might release vapor in sufficient quantities to produce hazardous atmospheres with air.

Special protective equipment for fire-fighters : Fire fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full facepiece operated in positive pressure mode.

Section 6. Accidental release measures

Personal precautions : Ventilate area of leak or spill. Do not touch damaged containers or spilled material unless wearing appropriate protective equipment (Section 8). Stop leak if without risk. Prevent entry into sewers, water courses, basements or confined areas.

Environmental precautions : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Methods for cleaning up : If emergency personnel are unavailable, contain spilled material. For small spills add absorbent (soil may be used in the absence of other suitable materials) and use a non-sparking or explosion proof means to transfer material to a sealed, appropriate container for disposal. For large spills dike spilled material or otherwise contain material to ensure runoff does not reach a waterway. Place spilled material in an appropriate container for disposal.--

Section 7. Handling and storage

Handling : Do not ingest. Avoid contact with eyes, skin and clothing. Keep away from heat, sparks and flame. To avoid fire, minimize ignition sources. Wash thoroughly after handling.

Storage : Keep out of the reach of children. Store in a segregated and approved area. Keep container in a cool, well-ventilated area. Keep container tightly closed and sealed until ready for use. Avoid all possible sources of ignition (spark or flame). Do not store above 50°C

Section 8. Exposure Controls, Personal Protection

Engineering controls : Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapors below their respective occupational exposure limits.

Personal protection

Eyes : Use safety eyewear designed to protect against splash of liquids.
Hands : For prolonged or repeated handling, use Impervious gloves.
Skin : No protective equipment is needed under normal use conditions.
Respiratory : No protective equipment is needed under normal use conditions.

Consult local authorities for acceptable exposure limits.

Section 9. Physical and chemical properties

Physical state : Liquid. (Liquid.)
Color : Yellow.
Odor : Alcohol like.
pH : Not applicable.
Boiling/condensation point : >100 °C
Specific gravity : 0.833 (Water = 1)
Solubility : Insoluble in cold water, hot water.
Section 10. Stability and reactivity

Stability : The product is stable.

Section 11. Toxicological information

Potential acute health effects

Eyes : Irritating to eyes.
Skin : Irritating to skin.
Inhalation : High vapor concentrations can cause headaches, dizziness, drowsiness, and nausea, and may lead to unconsciousness.
Ingestion : Harmful if swallowed. Aspiration hazard if swallowed- can enter lungs and cause damage.

Section 12. Ecological information

Products of degradation : These products are carbon oxides (CO, CO₂) and water.

Section 13. Disposal considerations

Waste disposal : The generation of waste should be avoided or minimized wherever possible. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements.

Consult your local or regional authorities.

Section 14. Transport information

<table>

APPLIES ONLY DURING ROAD TRANSPORT
Any variation of the shipping description based on the packaging is not addressed.

Section 15. Regulatory information

HCS Classification : Combustible liquid
U.S. Federal regulations : SARA 302/304/311/312 extremely hazardous substances: None.
SARA 302/304 emergency planning and notification: None.
TSCA 8(b) inventory : All materials are listed or exempt.
SARA 313 Product name : 2-(2-butoxyethoxy)ethanol
Concentration : 35
Form R - Reporting requirements : 2-(2-butoxyethoxy)ethanol
California prop. 65 : No products were found.
