Section 3. Hazards identification

Physical state: Liquid. (Liquid.)
Emergency overview:

CAUSES EYE AND SKIN BURNS.
CAUSES RESPIRATORY TRACT IRRITATION.
COMBUSTIBLE LIQUID AND VAPOR.
VAPOUR MAY CAUSE FLASH FIRE.
MAY BE FATAL IF ABSORBED THROUGH SKIN OR IF SWALLOWED.
Do not ingest. Do not get in eyes, on skin or on clothing. Avoid breathing vapor or mist.
Keep away from heat, sparks and flame. Keep container closed. Use only with adequate ventilation. Wash thoroughly after handling.

Potential acute health effects:

Eyes: Corrosive to eyes.
Skin: Corrosive to the skin.
Inhalation: Irritating to respiratory system.
Ingestion: Harmful if swallowed. Causes burns to mouth, throat and stomach.

See toxicological information (section 11)

Section 4. First aid measures

Eye contact: In case of contact, immediately flush eyes with cool running water. Remove contact lenses and continue flushing with plenty of water for at least 15 minutes. Get medical attention immediately.

Skin contact: In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Wash clothing before reuse. Clean shoes thoroughly before reuse. Get medical attention immediately.

Inhalation: If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention immediately.

Ingestion: Rinse mouth; then drink one or two large glasses of water. Do not induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention immediately.
Section 5. Fire fighting measures

Flash point: 46.6667 °C (Closed cup)
Product does not support combustion.

Products of combustion: These products are halogenated compounds, hydrogen chloride.

Fire-fighting media and instructions:
- In case of fire, use water spray (fog), foam, dry chemical, or CO₂.
- Dike liquid for later disposal.
- Combustible liquid and vapor. Vapor may cause flash fire. Vapors may accumulate in low or confined areas or travel a considerable distance to a source of ignition and flash back. Runoff to sewer may create fire or explosion hazard.

Special protective equipment for fire-fighters: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Section 6. Accidental release measures

Personal precautions:
- Immediately contact emergency personnel. Eliminate all ignition sources. Keep unnecessary personnel away. Use suitable protective equipment. Do not touch or walk through spilled material.

Environmental precautions:
- Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Methods for cleaning up:
- If emergency personnel are unavailable, contain spilled material. For small spills, add absorbent (soil may be used in the absence of other suitable materials) and use a non-sparking or explosion-proof means to transfer material to a sealable, appropriate container for disposal. For large spills, dike spilled material or otherwise contain material to ensure runoff does not reach a waterway. Place spilled material in an appropriate container for disposal.

Section 7. Handling and storage

Handling:
- Do not ingest. Do not get in eyes or on skin or clothing. Avoid breathing vapor or mist. Keep container closed. Use only with adequate ventilation. Keep away from heat, sparks and flame. To avoid fire, eliminate ignition sources. Wash thoroughly after handling.

Storage:
- Keep out of the reach of children. Store in a segregated and approved area. Keep container in a cool, well-ventilated area. Keep container tightly closed and sealed until ready for use. Avoid all possible sources of ignition (spark or flame).
- Store between 45 and 0°C

Section 8. Exposure controls, personal protection

Engineering controls:
- Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapors below their respective occupational exposure limits. Provide eyewash and safety shower in area if contact or splash hazard exists.

Personal protection:

Eyes:
- Use chemical splash goggles. For continued or severe exposure wear a face shield over the goggles.

Hands:
- Use chemical-resistant, impervious gloves.

Skin:
- Wear suitable protective clothing.

Respiratory:
- Avoid breathing vapors, spray or mists.

Name  | Exposure limits
---|---
ethanol  | ACGIH TLV (United States, 1/2005).
  | TWA: 1880 mg/m³ 8 hour(s). Form: All forms
  | TWA: 1000 ppm 8 hour(s). Form: All forms
  | OSHA PEL (United States, 8/1997).
  | TWA: 1900 mg/m³ 8 hour(s). Form: All forms
  | TWA: 1000 ppm 8 hour(s). Form: All forms
propan-2-ol  | ACGIH TLV (United States, 1/2005).
  | STEL: 400 ppm 15 minute/minutes. Form: All forms
  | TWA: 200 ppm 8 hour(s). Form: All forms
  | OSHA PEL (United States, 8/1997).
  | TWA: 980 mg/m³ 8 hour(s). Form: All forms
  | TWA: 400 ppm 8 hour(s). Form: All forms
Section 9. Physical and chemical properties

<table>
<thead>
<tr>
<th>Physical state</th>
<th>Liquid. (Liquid.)</th>

<tr>
<td>Specific gravity</td>
<td>0.95 (Water = 1)</td>
</tr>
<tr>
<td>Solubility</td>
<td>Soluble in hot water. Partially soluble in cold water.</td>
</tr>
</tbody>
</table>

Section 10. Stability and reactivity

Stability : The product is stable.
Reactivity : Slightly reactive to reactive with alkalis.
Hazardous decomposition products : These products are halogenated compounds, hydrogen chloride.

Section 11. Toxicological information

Potential acute health effects
- Eyes : Corrosive to eyes.
- Skin : Corrosive to the skin.
- Inhalation : Irritating to respiratory system.
- Ingestion : Harmful if swallowed. Causes burns to mouth, throat and stomach.

Potential chronic health effects
- Chronic effects on humans : Contains material which causes damage to the following organs: blood, the reproductive system, liver, upper respiratory tract, skin, central nervous system (CNS), eye, lens or cornea.

Section 12. Ecological information

Products of degradation : These products are carbon oxides (CO, CO₂) and water, nitrogen oxides (NO, NO₂ etc.), halogenated compounds. Some metallic oxides.

Section 13. Disposal considerations

Waste disposal : The generation of waste should be avoided or minimized wherever possible. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements.

Consult your local or regional authorities.

Section 14. Transport information

<table>
<thead>
<tr>

APPLIES ONLY DURING ROAD TRANSPORT
Any variation of the shipping description based on the packaging is not addressed.
Section 15. Regulatory information

HCS Classification : Combustible liquid
                  Corrosive material
                  Target organ effects

U.S. Federal regulations : SARA 302/304/311/312 extremely hazardous substances: No products were found.
                         SARA 302/304 emergency planning and notification: No products were found.

TSCA 8(b) inventory   : All materials are listed or exempt.
California Prop. 65   : No products were found.
EPA Registration No.  : 6836-38-1677

Section 16. Other information
