1 Identification

- Product identifier
- Trade name: Wetset Maxx
- Application of the substance / the mixture
  Laundry
  Pre-brushing agent
- Details of the supplier of the safety data sheet
  Manufacturer/Supplier:
  SEITZ GmbH
  Gutenbergstrasse 3
  65830 Kriftel / Germany
  Tel. + 49(0) 6192-9948-0
  Fax + 49(0) 6192-9948-99
  msds@seitz24.com
  www.seitz24.com
- Information department:
  CHEM-TEL Inc.
  1305 North Florida Ave
  Tampa Florida 33602
- Emergency telephone number: 1-800-255-3924

2 Hazard(s) identification

- Classification of the substance or mixture

  GHS05 Corrosion

  Eye Dam. 1 H318 Causes serious eye damage.

  GHS07

  Skin Irrit. 2 H315 Causes skin irritation.

- Label elements
- GHS label elements
  The product is classified and labeled according to the Globally Harmonized System (GHS).
- Hazard pictograms

  GHS05

- Signal word Danger

  Hazard-determining components of labeling:
  benzenesulfonic acid, C10-13-alkyl derivs., sodium salts
  Hazard statements
  H315 Causes skin irritation.
  H318 Causes serious eye damage.
  Precautionary statements
  P280 Wear protective gloves / eye protection.
  P264 Wash thoroughly after handling.
  P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
  P310 Immediately call a POISON CENTER or doctor/physician.

(Contd. on page 2)
Trade name: **Wetset Maxx**

**Hazard description:**

**WHMIS classification**
D2B - Toxic material causing other toxic effects

**Classification system**

**NFPA ratings (scale 0-4)**

- Health = 2
- Fire = 0
- Reactivity = 0

**HMIS-ratings (scale 0-4)**

- Health = 2
- Fire = 0
- Reactivity = 0

**Other hazards**

- Results of PBT and vPvB assessment
  - PBT: Not applicable.
  - vPvB: Not applicable.

### 3 Composition/information on ingredients

**Chemical characterization: Mixtures**

### 4 First-aid measures

**Description of first aid measures**

**General information** Immediately remove any clothing soiled by the product.

**After inhalation** Supply fresh air; consult doctor in case of complaints.

**After skin contact**
Immediately rinse with water.
If skin irritation continues, consult a doctor.

**After eye contact**
Rinse opened eye for several minutes under running water. Then consult a doctor.

**After swallowing**
Rinse out mouth and then drink plenty of water.
Do not induce vomiting; immediately call for medical help.

**Most important symptoms and effects, both acute and delayed**
No further relevant information available.

**Indication of any immediate medical attention and special treatment needed**
No further relevant information available.
5 Fire-fighting measures

- Extinguishing media
- Suitable extinguishing agents
  CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
- For safety reasons unsuitable extinguishing agents No further relevant information available.
- Special hazards arising from the substance or mixture
  Formation of toxic gases is possible during heating or in case of fire.
- Advice for firefighters
- Protective equipment:
  Do not inhale explosion gases or combustion gases.
  Wear self-contained respiratory protective device.
- Additional information
  Dispose of fire debris and contaminated fire fighting water in accordance with official regulations.

6 Accidental release measures

- Personal precautions, protective equipment and emergency procedures
  Wear protective equipment. Keep unprotected persons away.
  Avoid contact with eyes and skin.
  Ensure adequate ventilation
- Environmental precautions: Do not allow product to reach sewage system or any water course.
- Methods and material for containment and cleaning up:
  Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).
  Dispose of the collected material according to regulations.
- Reference to other sections
  See Section 8 for information on personal protection equipment.
  See Section 13 for disposal information.

7 Handling and storage

- Precautions for safe handling
  Keep away from heat and direct sunlight.
  Avoid contact with eyes and skin.
  Ensure adequate ventilation
- Information about protection against explosions and fires: No special measures required.
- Conditions for safe storage, including any incompatibilities
- Storage
  Requirements to be met by storerooms and receptacles: Store only in the original receptacle.
  Information about storage in one common storage facility: Store away from foodstuffs.
  Further information about storage conditions:
  Protect from heat and direct sunlight.
  Store in cool, dry conditions in well sealed receptacles.
  Protect from frost.
  Time of storage: max. 24 month
- Specific end use(s) Laundry

8 Exposure controls/personal protection

- Additional information about design of technical systems: No further data; see item 7.
· Control parameters
  · Components with limit values that require monitoring at the workplace:
    102-71-6 triethanolamine
    - TLV (USA) Long-term value: 5 mg/m³
    - EL (Canada) Long-term value: 5 mg/m³
    - EV (Canada) Long-term value: 3.1 mg/m³, 0.5 ppm
  · Additional information: The lists that were valid during the creation were used as basis.

· Exposure controls
  · Personal protective equipment
    · General protective and hygienic measures
      The usual precautionary measures for handling chemicals should be followed.
      Keep away from foodstuffs, beverages and feed.
      Immediately remove all soiled and contaminated clothing
      Wash hands before breaks and at the end of work.
      Avoid contact with the eyes and skin.
      Do not eat, drink, smoke or sniff while working.
      Do not inhale gases / fumes / aerosols.
    · Breathing equipment:
      Use suitable respiratory protective device in case of insufficient ventilation (exceeding the workplace limit values, formation of aerosols).
    · Protection of hands:
      Protective gloves.
      The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.
    · Material of gloves
      Nitrile rubber, NBR
      The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.
    · Penetration time of glove material
      The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.
    · Eye protection: Tightly sealed goggles.
    · Body protection: Protective work clothing.

9 Physical and chemical properties

· Information on basic physical and chemical properties
  · General Information
    · Appearance:
      - Form: Fluid
      - Color: Yellow
      - Odor: Product specific
      - Odour threshold: No further relevant information available.
    · pH-value at 20 °C (68 °F): ~ 8.3
  · Change in condition
    Melting point/Melting range: undetermined
    Boiling point/Boiling range: undetermined
  · Flash point: Not applicable
**Trade name:** Wetset Maxx

### 39.0.1 Flammability (solid, gaseous)
No further relevant information available.

### 39.0.2 Ignition temperature:
No further relevant information available.

### 39.0.3 Decomposition temperature:
No further relevant information available.

### 39.0.4 Auto igniting:
Product is not selfigniting.

### 39.0.5 Danger of explosion:
Product does not present an explosion hazard.

### 39.0.6 Explosion limits:
- Lower: No further relevant information available.
- Upper: No further relevant information available.

### 39.0.7 Oxidizing properties
No further relevant information available.

### 39.0.8 Vapor pressure:
No further relevant information available.

### 39.0.9 Density at 20 °C (68 °F):
~ 1.03 g/cm³ (ISO 2811)

### 39.0.10 Relative density
No further relevant information available.

### 39.0.11 Vapour density
No further relevant information available.

### 39.0.12 Evaporation rate
No further relevant information available.

### 39.0.13 Solubility in / Miscibility with Water:
Fully miscible

### 39.0.14 Partition coefficient (n-octanol/water):
No further relevant information available.

### 39.0.15 Viscosity:
- Dynamic: No further relevant information available.
- Kinematic: No further relevant information available.

### 39.0.16 Other information
No further relevant information available.

---

**10 Stability and reactivity**

- **Reactivity**: No further relevant information available.
- **Chemical stability**: Stable under normal ambient conditions. No decomposition if used and stored according to specifications.
- **Possibility of hazardous reactions**: None if used as directed.
- **Conditions to avoid**: No further relevant information available.
- **Incompatible materials**: Strong oxidizing agents
- **Hazardous decomposition products**: No dangerous decomposition products known

---

**11 Toxicological information**

- **Information on toxicological effects**
- **Acute toxicity**:

· Primary irritant effect:
  · on the skin: Irritant effect.
  · on the eye: Strong irritant with the danger of severe eye injury.
· Sensitization: No sensitizing effects known.
· Additional toxicological information:
  · Carcinogenic categories
    · IARC (International Agency for Research on Cancer)
      102-71-6 triethanolamine 3
    · NTP (National Toxicology Program)
      None of the ingredients is listed.
    · OSHA-Ca (Occupational Safety & Health Administration)
      None of the ingredients is listed.

12 Ecological information
· Toxicity
  · Aquatic toxicity: No further relevant information available.
· Persistence and degradability No further relevant information available.
· Bioaccumulative potential No further relevant information available.
· Mobility in soil No further relevant information available.
· Additional ecological information:
  · General notes:
    Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.
    The surfactant(s) contained in this preparation complies(comply) with the biodegradability criteria as laid down in Regulation (EC) No.648/2004 on detergents. Data to support this assertion are held at the disposal of the competent authorities of the Member States and will be made available to them, at their direct request or at the request of a detergent manufacturer.
  · Results of PBT and vPvB assessment
    · PBT: Not applicable.
    · vPvB: Not applicable.
  · Other adverse effects No further relevant information available.

13 Disposal considerations
· Waste treatment methods
  · Recommendation:
    Contaminated adsorbent, soil, water must be disposed of in a permitted hazardous waste management facility. Recovered products may be reused, reprocessed or incinerated or must be treated in a permitted hazardous waste management facility. It is your duty to dispose of the chemical materials and/or their containers in accordance with the Clean Air Act, The Clean Water Act, RCRA, as well as applicable Federal, State, and local Regulations regarding disposal.

14 Transport information
· UN-Number
  · DOT, ADR, ADN, IMDG, IATA Void
· UN proper shipping name
  · DOT, ADR, ADN, IMDG, IATA Void
### 39.0.1 Transport hazard class(es)
- DOT, ADR, ADN, IMDG, IATA
- Class: Void

### 15 Regulatory information

#### Canadian substance lists
- Canadian domestic substance list (DSL):
  All ingredients are listed.
- Canadian ingredient disclosure list (limit 0.1%):
  None of the ingredients is listed.
- Canadian ingredient disclosure list (limit 1%):
  68411-30-3 benzenesulfonic acid, C10-13-alkyl derivs., sodium salts

#### Sara
- Section 355 (extremely hazardous substances):
  None of the ingredients is listed.
- Section 313 (specific toxic chemical listings):
  None of the ingredients is listed.
- TSCA (Toxic Substances Control Act):
  All ingredients are listed.

#### Proposition 65
- Chemicals known to cause cancer:
  None of the ingredients is listed.
- Chemicals known to cause reproductive toxicity for females:
  None of the ingredients is listed.
- Chemicals known to cause reproductive toxicity for males:
  None of the ingredients is listed.
- Chemicals known to cause developmental toxicity:
  None of the ingredients is listed.

#### Cancerogenity categories
- EPA (Environmental Protection Agency)
  None of the ingredients is listed.
- TLV (Threshold Limit Value established by ACGIH)
  None of the ingredients is listed.
Trade name: Wetset Maxx

39.0.1
· MAK (German Maximum Workplace Concentration)
  None of the ingredients is listed.

· NIOSH-Ca (National Institute for Occupational Safety and Health)
  None of the ingredients is listed.

· National regulations
· Other regulations, limitations and prohibitive regulations
· Please note:
  The information herein is presented in good faith and believed to be accurate as of the effective
date shown above. However, no warranty, express or implied is given. Regulatory requirements
are subject to change and may differ from one location to another. It is the buyers responsibility
to ensure that its activities comply with Federal, State or provincial, and local laws. The following
specific information is made for the purpose of complying with numerous laws and regulations.
· Other information: The product has been designed for professional use only.

16 Other information

This information is based on our present knowledge. However, this shall not constitute a guarantee
for any specific product features and shall not establish a legally valid contractual relationship.

· Date of preparation / last revision 08/20/2014 / 1
