Section 1. Chemical product and company identification

Trade name : LIQUID EXEC 120 WATER CONDITIONER
Product use : Water conditioning agent.
Supplier : Ecolab Inc. Textile Care Division
           370 N. Wabasha Street
           St. Paul, MN 55102
           1-800-553-8683
Code : 956888-05
Date of issue : 08-March-2005

EMERGENCY HEALTH INFORMATION: 1-800-328-0026
Outside United States and Canada CALL 1-651-222-5352

</tbody>
</table>

Section 3. Hazards identification

Physical state : Liquid. (slurry)
Emergency overview : CAUTION!
MAY CAUSE EYE AND SKIN IRRITATION.
Do not ingest. Do not get in eyes, on skin or clothing. Avoid breathing vapor or mist. Keep container closed. Use only with adequate ventilation. Wash thoroughly after handling.

Potential acute health effects

See toxicological Information (section 11)

Section 4. First aid measures

Eye contact : In case of contact, immediately flush eyes with cool running water. Remove contact lenses and continue flushing with plenty of water for at least 15 minutes. Get medical attention if irritation persists.

Skin contact : Wash with soap and water. Get medical attention if irritation occurs. Wash clothing before reuse.

Inhalation : If inhaled, remove to fresh air.

Ingestion : Do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. If large quantities of this material are swallowed, call a physician immediately.
Section 5. Fire fighting measures

Flash point: > 100°C
Fire fighting media and instructions:
- Dike area of fire to prevent product run-off.
- No specific hazard.
Special protective equipment for fire-fighters:
- Fire fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full facepiece operated in positive pressure mode.

Section 6. Accidental release measures

Personal precautions:
- Ventilate area of leak or spill. Do not touch damaged containers or spilled material unless wearing appropriate protective equipment (Section 8). Stop leak if without risk. Prevent entry into sewers, water courses, basements or confined areas.

Environmental precautions:
- Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Methods for cleaning up:
- If emergency personnel are unavailable, contain spilled material. For small spills add absorbent (soil may be used in the absence of other suitable materials) scoop up material and place in a sealed, liquid-proof container for disposal. For large spills dike spilled material or otherwise contain material to ensure runoff does not reach a waterway. Place spilled material in an appropriate container for disposal.

Section 7. Handling and storage

Handling:
- Avoid contact with eyes, skin and clothing. Wash thoroughly after handling.

Storage:
- Keep out of the reach of children. Keep container tightly closed. Keep container in a cool, well-ventilated area.
- Store between 40 and 10°C

Section 8. Exposure Controls, Personal Protection

Engineering controls:
- Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapors below their respective occupational exposure limits. Ensure that eyewash stations and safety showers are proximal to the work-station location.

Personal protection:
- Eyes: Eye protection recommended.
- Hands: For prolonged or repeated handling, use Impervious gloves.
- Skin: No protective equipment is needed under normal use conditions.
- Respiratory: No protective equipment is needed under normal use conditions.

Consult local authorities for acceptable exposure limits.

Section 9. Physical and chemical properties

Physical state: Liquid. (slurry)
Color: White.
Odor: Faint Odor
pH: 9.8 (100%)
Boiling/condensation point: >100 °C
Specific gravity: 1.38 (Water = 1)
Viscosity: Dynamic: 450 cP
Dispersion properties: Dispersed in hot water. Partially dispersed in cold water.
Solubility: Soluble in hot water. Partially soluble in cold water.

**Section 10. Stability and reactivity**

Stability: The product is stable.
Reactivity: Slightly reactive to reactive with acids.

**Section 11. Toxicological information**

**Potential acute health effects**

- **Eyes**: Moderately irritating to the eyes.
- **Skin**: Moderately irritating to the skin.
- **Inhalation**: No known significant effects or critical hazards.
- **Ingestion**: No known significant effects or critical hazards.

**Chronic effects on humans**: Contains material which causes damage to the following organs: skin, eye, lens or cornea.

**Section 12. Ecological information**

**Products of degradation**: These products are carbon oxides (CO, CO\textsubscript{2}) and water, sulfur oxides (SO\textsubscript{2}, SO\textsubscript{3}...), phosphates. Some metallic oxides.

**Section 13. Disposal considerations**

**Waste disposal**: The generation of waste should be avoided or minimized wherever possible. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements.

**Consult your local or regional authorities.**

**Section 14. Transport information**

<table>

**APPLIES ONLY DURING ROAD TRANSPORT**

Any variation of the shipping description based on the packaging is not addressed.

**Section 15. Regulatory information**

- **HCS Classification**: Irritating material
- **Target organ effects**: None.
- **U.S. Federal regulations**: SARA 302/304/311/312 extremely hazardous substances: None.
- **SARA 302/304 emergency planning and notification**: None.
- **TSCA 8(b) inventory**: All materials are listed or exempt.
- **California prop. 65**: No products were found.
