Reviewed on 11/28/2000

1 Identification of substance:
   - Product details:
     - Trade name: SOLVEX 1
     - Manufacturer/Supplier:
       SKITZ GmbH
       Chemische Fabrik
       Gutenbergstr. 3
       D-65830 Kriftel
     - Information department:
       CHEM-TEL Inc.
       10770 North 46th Street STE. B100
       Temple Terrace
       Tampa Florida 33617
     - Emergency information: 1-800-255-3924

2 Composition/Data on components:
   - Chemical characterization
   - Description:
     Mixture of the substances listed below with non-hazardous ingredients.
   - CAS-No. Components:
     64742-48-9 isooalkanes 10 - 30 %
     68411-30-3 linear alkylbenzenesulfonic acid salt 10 - 30 %
     112-34-5 diethylene glycol monobutylether ≤ 5 %

3 Hazards identification
   - Hazard description:
     Irritant liquid
     Combustible liquid
   - Information pertaining to particular dangers for man and environment
     Irritating to eyes and skin.
   - Classification system
     The classification was made according to the latest editions of international substances lists, and expanded upon from company and literature data.
   - NFPA ratings (scale 0-4)
     [Health = 1
     Fire = 2
     Reactivity = 0]

4 First aid measures
   - General information
     Immediately remove any clothing soiled by the product.
     Remove casualties from exposure.
     Keep unprotected persons away.
   - After inhalation
     Supply fresh air; consult doctor in case of complaints.
   - After skin contact
     Immediately rinse with water.
     If skin irritation continues, consult a doctor.
   - After eye contact
     Rinse opened eye for several minutes under running water. Then consult a doctor.

(Contd. on page 2)
Trade name: SOLVEX 1

(Contd. of page 1)

5 Fire fighting measures

- Suitable extinguishing agents
  CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
- Special hazards caused by the material, its products of combustion or resulting gases:
  In certain fire conditions, traces of other toxic gases cannot be excluded.
- Protective equipment:
  Wear self-contained respiratory protective device.
  Do not inhale explosion gases or combustion gases.

6 Accidental release measures

- Person-related safety precautions:
  Wear protective equipment. Keep unprotected persons away.
  Ensure adequate ventilation.
  Avoid contact with eyes and skin.
- Measures for environmental protection:
  Do not allow product to reach sewage system or any water course.
- Measures for cleaning/collecting:
  Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).
  Dispose of the collected material according to regulations.

7 Handling and storage

- Handling
  Information for safe handling:
  Keep away from heat and direct sunlight.
  Ensure good ventilation/exhaustion at the workplace.
  Avoid contact with eyes and skin.
- Information about protection against explosions and fires:
  Keep ignition sources away - Do not smoke.
  Protect against electrostatic charges.

- Storage
  Requirements to be met by storerooms and receptacles:
  Store only in the original receptacle.
  Do not use light alloy receptacles.
- Information about storage in one common storage facility:
  Store away from foodstuffs.
  Store away from oxidizing agents.
  Do not store together with alkalis (caustic solutions).
- Further information about storage conditions:
  Avoid contact with air / oxygen (formation of peroxide).
  Protect from heat and direct sunlight.
  Protect from frost.
  Time of storage: max. 18 month
  Store in cool, dry conditions in well sealed receptacles.
- Class according to regulation on flammable liquids: A III
8 Exposure controls and personal protection

- Additional information about design of technical systems:
  No further data; see item 7.

  Components with limit values that require monitoring at the workplace:
  64742-48-9 isoalkanes
  ACGIH TLV: 1000 mg/m³, 200 ppm

- Additional information:
  The lists that were valid during the creation were used as basis.

  Personal protective equipment
  - General protective and hygienic measures
    The usual precautionary measures for handling chemicals should be followed.
    Keep away from foodstuffs, beverages and feed.
    Do not inhale gases / fumes / aerosols.
    Use skin protection cream for skin protection.
    Do not eat, drink, smoke or sniff while working.
    Wash hands before breaks and at the end of work.
    Avoid contact with the eyes and skin.

  - Breathing equipment:
    Use suitable respiratory protective device in case of insufficient ventilation.
    Fiter A

  - Protection of hands: Solvent resistant gloves
  - Eye protection: Safety glasses
  - Body protection: Protective work clothing.

9 Physical and chemical properties:

- Form: Fluid
- Color: Yellow
- Odor: Light

- Flash point: 163°F / 73 °C  ASTM D 930-00

- Auto igniting: Product is not selfigniting.

- Danger of explosion:
  Product is not explosive. However, formation of explosive air/vapor mixtures are possible.

- Density: 0.920 – 0.930 g/cm³  ISO 2011

- Solubility in / Miscibility with
  Water: Emulsifiable

- pH-value: (100 g/l)  at 20 °C  6.0 – 7.2

10 Stability and reactivity

- Thermal decomposition / conditions to be avoided:
  No decomposition if used according to specifications.

11 Toxicological information

- Acute toxicity:
  LD/LC50 values that are relevant for classification:

  64742-48-9 isocyanates
  Oral: LD50: >5000 mg/kg (rat)
  Dermal: LD50: >3000 mg/kg (rabbit)

  68411-30-3 linear alkylbenzenesulfonic acid salt
  Oral: LD50: 2550 mg/kg (rat)

  112-34-5 diethylene glycol monobutylether
  Oral: LD50: 6560 mg/kg (rat)
  Dermal: LD50: 4120 mg/kg (rabbit)

- Primary irritant effect:
  - on the skin: Irritant to skin and mucous membranes.
  - on the eye: Irritating effect.

- Sensitization: No sensitizing effects known.

- Additional toxicological information:
  The product shows the following dangers according to internally
  approved calculation methods for preparations:

  Irritant
  When used and handled according to specifications, the product does not
  have any harmful effects according to our experience and the
  information provided to us.

12 Ecological information:

- General notes:

  Water hazard class 2 (Self-assessment): hazardous for water.
  Do not allow product to reach ground water, water course or sewage
  system.
  At present there are no ecotoxicological assessments.

13 Waste Disposal Method

- Product and uncleaned packagings:
  Recommendation:
  Contaminated adsorbent, soil, water must be disposed of in a permitted
  hazardous waste management facility. Recovered products may be reused,
  reprocessed or incinerated or must be treated in a permitted hazardous
  waste management facility. It is your duty to dispose of the chemical
  materials and/or their containers in accordance with the Clean Air Act,
  The Clean Water Act, RCRA, as well as applicable Federal, State, and
  local Regulations regarding disposal.

14 Transport information

- DOT regulations:
  - Hazard class:

- Land transport ADR/KID (cross-border)
  - ADR/KID class:

- Maritime transport IMDG:

- Transport/Additional information:
  Not dangerous according to the above specifications.

15 Regulatory information (Not meant to be all-inclusive/selected regulations represented)

- Product related hazard informations:
  The product has been marked in accordance with national laws.
  Observe the general safety regulations when handling chemicals

- Hazard symbols:
  Irritant
  Combustible

- Risk phrases: Irritating to eyes and skin.

- Safety phrases:
  Keep out of the reach of children.
  When using do not eat or drink.
  Avoid contact with skin and eyes.
  In case of contact with eyes, rinse immediately with plenty of water
  and seek medical advice.
  After contact with skin, take off immediately all contaminated
  clothing, and wash immediately with plenty of water.
  Wear suitable gloves and eye/face protection.
  in case of accident or if you feel unwell, seek medical advice
  immediately.
  If swallowed, seek medical advice immediately and show this container
  or label.

- National regulations

- Water hazard class:
  Water hazard class 2 (Self-assessment): hazardous for water.

- Other regulations, limitations and prohibitive regulations
  The product has been designed for professional use only.

Please note:
The information herein is presented in good faith and believed to be
accurate as of the effective date shown above. However, no warranty,
express or implied is given. Regulatory requirements are subject to
change and may differ from one location to another. It is the buyer's
responsibility to ensure that their activities comply with Federal,
State or provincial and local laws. The following specific information
is made for the purpose of complying with numerous laws and
regulations.

- U.S. Regulations
- SARA 313 Information:
  This product contains the following substances are subject to the
  reporting requirements of Section 313 of Title III of the Superfund
  Amendments and Reauthorization Act of 1986 and 40 CFR Part 372:
  CAS-No.: Chemical name:

  Void

- SARA Hazard Category:
  This product has been reviewed according to the EPA "Hazard Categories"
  promulgated under Sections 311 and 312 of the Superfund Amendment
  and Reauthorization Act of 1986 (SARA Title III) and is considered, under
  applicable definitions, to meet the following categories: void

- Toxic Substances Control Act (TSCA):
  All ingredients are listed on the TSCA inventory.

- California proposition 65:
  The following statement is made in order to comply with the California Safe Drinking Water and Toxic Enforcement Act of 1986. This product contains / does not contain chemical(s) known to the State of California to cause cancer and/or to cause reproductive toxicity.

Chemicals known to cause cancer:

- State right-to-know
  The following product component(s) is/are cited on certain State lists as mentioned. Non-listed components may be shown in the composition section of the MSDS.

- CAS-No.: Chemical name: LIST: void

- OSHA hazard communication standard:
  This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

- Comprehensive Environmental Response Compensation and Liability Act (CERCLA, or Superfund):
  This product contains the following substance(s) listed as "Hazardous Substances" under CERCLA, which may require reporting of releases:

  - CAS-No.: Chemical name: void

- Canadian regulations

- WHMIS information:
  The Canadian Workplace Hazardous Materials Information System (WHMIS) Classification for this product is:
  D2B - Eye and/or skin irritant
  Refer elsewhere in the MSDS for specific warnings and safe handling information. Refer to the employer's workplace education program.

  B3 - Combustible liquid

- CPR statement:
  This product has been classified in accordance with the hazard criteria of the Canadian Controlled Products Regulations (CPR) and the MSDS contains all the information required by the CPR.

- CAS-No.: Components:
  68411-30-3 linear alkylenesulfonic acid salt
  112-34-5 diethylene glycol monobutylether

16 Other information:

- **After eye contact**
  Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

- **After swallowing**
  Rinse out mouth and then drink plenty of water. Do not induce vomiting; immediately call for medical help.

5 **Fire fighting measures**

- **Suitable extinguishing agents**
  CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.

- **Special hazards caused by the material, its products of combustion or resulting gases:**
  In case of fire, the following can be released:
  - Sulphur oxides (SOx)
  - Carbon monoxide and carbon dioxide (CO, CO2)
  In certain fire conditions, traces of other toxic gases cannot be excluded.

- **Protective equipment:**
  - Mount respiratory protective device.
  - Do not inhale explosion gases or combustion gases.

- **Additional information**
  Dispose of fire debris and contaminated fire fighting water in accordance with official regulations.

6 **Accidental release measures**

- **Person-related safety precautions:**
  - Wear protective equipment. Keep unprotected persons away.
  - Avoid contact with eyes and skin.

- **Measures for environmental protection:**
  - Do not allow product to reach sewage system or any water course.
  - Measures for cleaning/collection:
    - Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).
    - Dispose of the collected material according to regulations.
