Rinse mouth with water. Immediately after ingestion: Give lots of water to drink. Do not induce vomiting. Do not give activated charcoal. Do not give chemical antidote. Immediately consult a doctor/medical service. Ingestion of large quantities: Go immediately to hospital.

Most Important Symptoms and Effects (Acute and Delayed)

Symptoms/Injuries after Inhalation:
Dry/sore throat. Coughing. Irritation of the respiratory tract and/or nasal mucous membranes. Delayed symptoms include possible laryngeal spasm/oedema. Risk of lung oedema. Respiratory difficulties.

Symptoms/Injuries after Skin Contact:
Absorption through skin could cause itching, irritation, and rashes.

Symptoms/Injuries after Eye contact:
Redness, itchiness, burning.
Symptoms/Injuries after Ingestion:
May cause headache, dizziness, and gastrointestinal distress.

SECTION 5 – FIRE-FIGHTING MEASURES

Extinguishing Media:
Water fog or spray, Foam, Dry Powder, Carbon Dioxide (CO2).

Unsuitable Extinguishing Media:
Do not use water jet as an extinguisher as this will spread the fire.

Hazards Arising From the Chemical:
Smoke may contain original material which may be toxic and/or irritating.

Advice for Firefighters

Precautionary Measures\Firefighting Instructions:
In case of fire and/or explosion do not breathe fumes. Use standard fire fighting procedures and consider hazards of other involved materials.

Special Protective Equipment:
Self contained breathing apparatus and full protective cloting must be worn in case of fire.

SECTION 6 – ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment, and Emergency Procedures

Protective Equipment:
Gloves and Goggles. Wear additional appropriate protective equipment and clothing when necessary.

Emergency Procedures:
Mark the danger area. Ensure adequate ventilation. No naked flames. Wash contaminated clothes. Large spills/in confined spaces: Consider evacuation.

Environmental Precaution:
Prevent soil and water pollution. Prevent spreading in sewers. Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters. Avoid release to the environment.

Methods and Material for Containment and Cleaning Up

Containment:
Contain released substance, pump into suitable containers. Plug the leak, cut off the supply. Dam up the liquid spill.

Methods for Clean Up:
Take up liquid spill into absorbent material, e.g.: dry sand/earth or powdered limestone. Scoop absorbed substance into closing containers. Carefully collect the spill/leftovers. Wash away remainder with plentiful water. Damaged/cooled tanks must be emptied. Clean contaminated surfaces with an excess of water. Take collected spill to manufacturer/competent authority. Wash clothing and equipment after handling.
SECTION 7 - HANDLING AND STORAGE

Precautions for Safe Handling:
Wear appropriate personal protective equipment. Open containers slowly, on a stable surface. Containers of this product must be properly labeled. Keep container tightly closed when not in use. Wash thoroughly after using this material. Inspect all incoming containers before storage, to ensure containers are properly labeled and not damaged. Empty containers may contain residual materials, therefore, empty containers should be handled with care.

Conditions for Safe Storage, Including any Incompatibilities
