SECTION 4 - FIRST AID MEASURES

DESCRIPTION OF NECESSARY FIRST AID MEASURES:

GENERAL ADVICE: If exposed or concerned: Consult a physician / doctor if necessary.

INHALATION: If symptoms of overexposure develop, remove person to fresh air and keep comfortable for breathing. Call a physician if symptoms do not improve.

SKIN CONTACT: Rinse skin with water / shower. If spilled on clothing, remove all contaminated clothing immediately. Wash contaminated clothing before reuse.

EYE CONTACT: Rinse cautiously with water for several minutes. Remove contact lenses, if present, and easy to do. Continue rinsing for 15 minutes. If pain, irritation, or vision problems persist, see an ophthalmologist immediately. Suitable emergency eye wash facility should be immediately available.

INGESTION: If swallowed, do NOT induce vomiting. If vomiting occurs spontaneously, keep head below hips to prevent aspiration into lungs. If person is unconscious, watch carefully, or lay person on their side to prevent aspiration in case of vomiting. Seek immediate medical attention.

MOST IMPORTANT SYMPTOMS / EFFECTS, BOTH ACUTE AND DELAYED:
Aside from the information found under “Description of First Aid Measures” (above) and “Indication of Immediate Medical Attention and Special Treatment Needed” (below), any additional important symptoms and effects are described in Section 11: “Toxicology Information”.

INDICATION OF IMMEDIATE MEDICAL ATTENTION AND SPECIAL TREATMENT NEEDED:

NOTES TO PHYSICIAN: There is no specific antidote. Treatment of overexposure should be directed at the control of symptoms and the clinical condition of the patient. If ingested, material may be aspirated into the lungs and cause chemical pneumonitis. Skin contact may aggravate preexisting dermatitis. Repeated excessive exposure may aggravate preexisting lung disease.

SECTION 5 - FIRE FIGHTING MEASURES

SUITABLE EXTINGUISHING MEDIA: Use dry chemical fire extinguishers, carbon dioxide (CO₂), or alcohol-resistant foam (ATC type) fire extinguishers for extinction. Can use water fog or fine spray.

UNSUITABLE EXTINGUISHING MEDIA: Do not use water or solid water stream. Straight or direct water streams may not be effective to extinguish fire.

SPECIFIC HAZARDS ARISING FROM FIRE FIGHTING:

HAZARDOUS COMBUSTION PRODUCTS: During a fire, smoke may contain the original material in addition to combustion products of varying composition which may be toxic and/or irritating. Combustion products may include and are not limited to: Carbon monoxide (CO), Carbon dioxide (CO₂), sulfur oxides, smoke, fume, soot.

UNUSUAL FIRE & EXPLOSION HAZARDS: Flammable vapor. Vapors from this product may travel along the ground for some distance and can be ignited by heat, pilot lights, etc., and flash back to the source of vapors.

ADVICE FOR FIREFIGHTERS:

FIRE FIGHTING PROCEDURES: Isolate fire and deny unnecessary entry. Product may be carried across water surface spreading fire or contracting any ignition source.

SPECIAL PROTECTIVE EQUIPMENT FOR FIREFIGHTERS: If more than a small fire, wear positive pressure self-contained breathing apparatus (SCBA) and protective fire fighting clothing (includes fire fighting helmet, coat, trousers, boots, and gloves). If protective equipment is not available or not used, fight fire from a protected location or safe distance.
SECTION 6 - ACCIDENTAL RELEASE MEASURES

PERSONAL PRECAUTIONS, PROTECTIVE EQUIPMENT AND EMERGENCY PROCEDURE:
Eliminate all sources of ignition in the vicinity of spill to avoid fire or explosion. Ventilate area of leak or spill. No smoking in area. Remove immediately all contaminated clothing. Refer to section 7, “Handling”, for additional precautionary measures. For additional information, refer to section 8, “Exposure Controls and Personal Protection”.

ENVIRONMENTAL PRECAUTIONS: WASTE DISPOSAL: Dispose of waste according to the local / regional / national / international regulations that apply in your location. Treat waste as flammable material, even when absorbed in rags or absorbent. Do not allow waste to enter sewer or any bodies of water.

METHODS AND MATERIAL FOR CONTAINMENT AND CLEANING UP: FOR SMALL SPILLS OR DRIPS: Wipe liquid up, or absorb with non-combustible absorbent, such as sand or clay. Place absorbent in a metal container with a tight lid for disposal. FOR LARGE SPILLS: Absorb liquid with sand or clay. Scoop up absorbent and liquid, and place in a metal container with a tight lid for disposal. See Section 13, “Disposal Considerations”, for additional information.

SECTION 7 - HANDLING AND STORAGE

PRECAUTIONS FOR SAFE HANDLING: Keep away from flames and hot surfaces. No smoking. Wash hands thoroughly after handling. Take precautionary measures against static discharge. Avoid eye contact or prolonged skin contact. Keep out of the reach of children. Treat all chemicals with caution and respect, and always use only as directed.
