Section 3. Hazards identification

Physical state: Liquid. (Liquid.)

Emergency overview:

MAY CAUSE ALLERGIC SKIN REACTION.
MAY CAUSE EYE IRRITATION.
Repeated or prolonged contact with irritants may cause dermatitis.
Avoid contact with eyes, skin and clothing. Wash thoroughly after handling.

Potential acute health effects:

Eyes: Moderately irritating to eyes.
Skin: Slightly irritating to the skin. May cause sensitization by skin contact.
Inhalation: Slightly irritating to the respiratory system.
Ingestion: No known significant effects or critical hazards.

See toxicological information (section 11)

Section 4. First aid measures

Eye contact: In case of contact, immediately flush eyes with cool running water. Remove contact lenses and continue flushing with plenty of water for at least 15 minutes. Get medical attention if irritation persists.

Skin contact: Flush contaminated skin with plenty of water. Continue to rinse for at least 10 minutes. Get medical attention if irritation persists. Remove contaminated clothing and shoes. Wash clothing before reuse. Clean shoes thoroughly before reuse.

Inhalation: If inhaled, remove to fresh air.
Ingestion: Do not induce vomiting. Never give anything by mouth to an unconscious person. If irritation persists, get medical attention.
Section 5. Fire fighting measures

Flash point : > 100°C
Products of combustion : These products are halogenated compounds, hydrogen chloride.
Fire-fighting media and instructions : Use an extinguishing agent suitable for the surrounding fire.
Special protective equipment for fire-fighters : Dike liquid for later disposal.
No specific hazard.

Section 6. Accidental release measures

Personal precautions : Ventilate area of leak or spill. Do not touch damaged containers or spilled material unless wearing appropriate protective equipment (Section 8). Stop leak if without risk. Do not allow to enter drains or watercourses.
Environmental precautions : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.
Methods for cleaning up : If emergency personnel are unavailable, contain spilled material. For small spills, add absorbent (soil may be used in the absence of other suitable materials), scoop up material and place in a sealable, liquid-proof container for disposal. For large spills, dike spilled material or otherwise contain material to ensure runoff does not reach a waterway. Place spilled material in an appropriate container for disposal.

Section 7. Handling and storage

Handling : Avoid prolonged or repeated contact with skin. Avoid contact with eyes. Wash thoroughly after handling.
Storage : Keep out of the reach of children. Keep container tightly closed. Keep container in a cool, well-ventilated area.
Do not store below the following temperature: 0°C

Section 8. Exposure controls, personal protection

Engineering measures : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
Personal protection:

Eye protection recommended.
Use chemical-resistant, impervious gloves.
Use suitable protective equipment.
A respirator is not needed under normal and intended conditions of product use.
Consult local authorities for acceptable exposure limits.

Section 9. Physical and chemical properties

Physical state : Liquid. (Liquid.)
Color : Orange. (Dark.)
Odor : citrus
pH : 7.2 to 9 (100%)
Specific gravity : 1.021 (Water = 1)

Section 10. Stability and reactivity

Stability : The product is stable.
Hazardous decomposition products : These products are halogenated compounds, hydrogen chloride.
Section 11. Toxicological information

Potential acute health effects

Eye : Moderately irritating to eyes.

Skin : Slightly irritating to the skin. May cause sensitization by skin contact.

Inhalation : Slightly irritating to the respiratory system.

Ingestion : No known significant effects or critical hazards.

Potential chronic health effects

Chronic effects on humans : Contains material which causes damage to the following organs: skin, eye, lens or cornea.

Section 12. Ecological information

Section 13. Disposal considerations

Waste disposal : The generation of waste should be avoided or minimized wherever possible. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements.

Consult your local or regional authorities.

Section 14. Transport information

APPLIES ONLY DURING ROAD TRANSPORT
Any variation of the shipping description based on the packaging is not addressed.

Section 15. Regulatory information

HCS Classification : Irritating material
                    Sensitizing material
                    Target organ effects

U.S. Federal regulations : SARA 302/304/311/312 extremely hazardous substances: No products were found.
                          SARA 302/304 emergency planning and notification: No products were found.

TSCA 8(b) inventory : All materials are listed or exempt.

California Prop. 65 : No products were found.
