1 Identification

- Product identifier
- Trade name: Maxx Spray
- Application of the substance / the mixture
  Laundry
  Pre-brushing agent
- Details of the supplier of the safety data sheet
  Manufacturer/Supplier:
  SEITZ GmbH
  Gutenbergstrasse 3
  65830 Kriftel / Germany
  Tel. + 49(0) 6192-9948-0
  Fax + 49(0) 6192-9948-99
  msds@seitz24.com
  www.seitz24.com
- Information department:
  CHEM-TEL Inc.
  1305 North Florida Ave
  Tampa Florida 33602
- Emergency telephone number: 1-800-255-3924

2 Hazard(s) identification

- Classification of the substance or mixture

  GHS05 Corrosion

  Eye Dam. 1   H318   Causes serious eye damage.

- Label elements
  - GHS label elements
    The product is classified and labeled according to the Globally Harmonized System (GHS).
  - Hazard pictograms

  GHS05

- Signal word Danger

  - Hazard-determining components of labeling:
    isotridecanol, ethoxylated
  - Hazard statements
    H318 Causes serious eye damage.
  - Precautionary statements
    P280 Wear protective gloves / eye protection.
    P305+P351+P338 If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
    P310 Immediately call a poison center/doctor.

- Hazard description:
  - WHMIS classification
    D2B - Toxic material causing other toxic effects

(Contd. on page 2)
Trade name: Maxx Spray

- Classification system
- NFPA ratings (scale 0-4)
  
  Health = 1
  Fire = 0
  Reactivity = 0

- HMIS-ratings (scale 0-4)
  
  HEALTH
  Health = 1
  FIRE
  Fire = 0
  REACTIVITY
  Reactivity = 0

- Other hazards
- Results of PBT and vPvB assessment
  - PBT: Not applicable.
  - vPvB: Not applicable.

3 Composition/information on ingredients

- Chemical characterization: Mixtures

- Additional information For the wording of the listed risk phrases refer to section 16.

4 First-aid measures

- Description of first aid measures
- General information Immediately remove any clothing soiled by the product.
- After inhalation Supply fresh air; consult doctor in case of complaints.
- After skin contact
  Immediately rinse with water.
  If skin irritation continues, consult a doctor.
- After eye contact
  Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.
- After swallowing
  Rinse out mouth and then drink plenty of water.
  Do not induce vomiting; immediately call for medical help.
- Most important symptoms and effects, both acute and delayed
  No further relevant information available.
- Indication of any immediate medical attention and special treatment needed
  No further relevant information available.

5 Fire-fighting measures

- Extinguishing media
- Suitable extinguishing agents
  CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
- For safety reasons unsuitable extinguishing agents No further relevant information available.
- Special hazards arising from the substance or mixture
  Formation of toxic gases is possible during heating or in case of fire.
4.0.4

· Advice for firefighters
· Protective equipment:
  Do not inhale explosion gases or combustion gases.
  Wear self-contained respiratory protective device.
· Additional information
  Dispose of fire debris and contaminated fire fighting water in accordance with official regulations.

6 Accidental release measures

· Personal precautions, protective equipment and emergency procedures
  Wear protective equipment. Keep unprotected persons away.
  Avoid contact with eyes and skin.
  Ensure adequate ventilation
· Environmental precautions: Do not allow product to reach sewage system or any water course.
· Methods and material for containment and cleaning up:
  Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).
  Dispose of the collected material according to regulations.
· Reference to other sections
  See Section 8 for information on personal protection equipment.
  See Section 13 for disposal information.

7 Handling and storage

· Precautions for safe handling
  Keep away from heat and direct sunlight.
  Avoid contact with eyes and skin.
  Ensure good ventilation/exhaustion at the workplace.
· Information about protection against explosions and fires: No special measures required.
· Conditions for safe storage, including any incompatibilities
· Storage
  Requirements to be met by storerooms and receptacles: Store only in the original receptacle.
  Information about storage in one common storage facility: Store away from foodstuffs.
· Further information about storage conditions:
  Protect from heat and direct sunlight.
  Store in cool, dry conditions in well sealed receptacles.
  Protect from frost.
  Time of storage: max. 18 month
· Specific end use(s) Laundry

8 Exposure controls/personal protection

· Additional information about design of technical systems: No further data; see item 7.
· Control parameters
  · Components with limit values that require monitoring at the workplace:
    34590-94-8 dipropylene glycol monomethylether
    PEL (USA) Long-term value: 600 mg/m³, 100 ppm
      Skin
    REL (USA) Short-term value: 900 mg/m³, 150 ppm
      Long-term value: 600 mg/m³, 100 ppm
      Skin

(Contd. on page 4)
Trade name: Maxx Spray

| TLV (USA) | Short-term value: 909 mg/m³, 150 ppm  
| Long-term value: 606 mg/m³, 100 ppm  
| Skin |  
| EL (Canada) | Short-term value: 150 ppm  
| Long-term value: 100 ppm  
| Skin |  
| EV (Canada) | Short-term value: 910 mg/m³, 150 ppm  
| Long-term value: 605 mg/m³, 100 ppm |  

Additional information: The lists that were valid during the creation were used as basis.

Exposure controls

Personal protective equipment

General protective and hygienic measures

The usual precautionary measures for handling chemicals should be followed.
Keep away from foodstuffs, beverages and feed.
Immediately remove all soiled and contaminated clothing.
Do not inhale gases / fumes / aerosols.
Wash hands before breaks and at the end of work.
Avoid contact with the eyes and skin.
Do not eat, drink, smoke or sniff while working.

Breathing equipment:

Ensure good ventilation/exhaustion at the workplace.
Use suitable respiratory protective device in case of insufficient ventilation (exceeding the workplace limit values, formation of aerosols).

Protection of hands:

Protective gloves.
The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

Material of gloves

Nitrile rubber, NBR
The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Penetration time of glove material

The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.

Eye protection: Tightly sealed goggles.

Body protection: Protective work clothing.

**9 Physical and chemical properties**

- Information on basic physical and chemical properties
- General Information
- Appearance:
  - Form: Fluid
  - Color: Light yellow
- Odor: Product specific
- Odour threshold: No further relevant information available.

- pH-value at 20 °C (68 °F): ~ 8.1

- Change in condition
  - Melting point/Melting range: undetermined
  - Boiling point/Boiling range: undetermined
## 10 Stability and reactivity

- **Reactivity** No further relevant information available.
- **Chemical stability**
  Stable under normal ambient conditions.
  No decomposition if used and stored according to specifications.
- **Possibility of hazardous reactions** None if used as directed.
- **Conditions to avoid** No further relevant information available.
- **Incompatible materials:** Strong oxidizing agents
- **Hazardous decomposition products:** No dangerous decomposition products known

## 11 Toxicological information

- **Information on toxicological effects**
- **Acute toxicity:**
  - LD/LC50 values that are relevant for classification:
    - **34590-94-8 dipropylene glycol monomethylether**
      - Oral LD50: > 5000 mg/kg (rat)
      - Dermal LD50: 9500 mg/kg (rabbit)
      - Inhalative LC50 (7h): > 500 mg/l (rat)
    - **68154-97-2 alcohols, C10-12, ethoxylated propoxylated**
      - Oral LD50: 7940 mg/kg (rat)
Trade name: Maxx Spray

69011-36-5 isotridecanol, ethoxylated

<table>
<thead>
<tr>
<th>Oral LD50</th>
<th>&gt; 300 - 2000 mg/kg (rat)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dermal LD50</td>
<td>&gt; 2000 mg/kg (rat)</td>
</tr>
</tbody>
</table>

- Primary irritant effect:
  - on the skin: No irritant effect.
  - on the eye: Strong irritant with the danger of severe eye injury.
  - Sensitization: No sensitizing effects known.

- Additional toxicological information:
  - Carcinogenic categories
    - IARC (International Agency for Research on Cancer)
      None of the ingredients is listed.
    - NTP (National Toxicology Program)
      None of the ingredients is listed.
    - OSHA-Ca (Occupational Safety & Health Administration)
      None of the ingredients is listed.

12 Ecological information

- Toxicity
  - Aquatic toxicity: No further relevant information available.

- Persistence and degradability No further relevant information available.

- Bioaccumulative potential No further relevant information available.

- Mobility in soil No further relevant information available.

- Additional ecological information:
  - General notes:
    Do not allow undiluted product or large quantities of it to reach ground water, water course or
    sewage system.

    The surfactant(s) contained in this preparation complies(comply) with the biodegradability criteria
    as laid down in Regulation (EC) No.648/2004 on detergents. Data to support this assertion are held
    at the disposal of the competent authorities of the Member States and will be made available to
    them, at their direct request or at the request of a detergent manufacturer.

- Results of PBT and vPvB assessment
  - PBT: Not applicable.
  - vPvB: Not applicable.
  - Other adverse effects No further relevant information available.

13 Disposal considerations

- Waste treatment methods
  - Recommendation:
    Contaminated adsorbent, soil, water must be disposed of in a permitted hazardous waste
    management facility. Recovered products may be reused, reprocessed or incinerated or must be
    treated in a permitted hazardous waste management facility. It is your duty to dispose of the
    chemical materials and/or their containers in accordance with the Clean Air Act, The Clean Water
    Act, RCRA, as well as applicable Federal, State, and local Regulations regarding disposal.

14 Transport information

- UN-Number
- DOT, ADR, ADN, IMDG, IATA Void

(Contd. on page 7)
Trade name: Maxx Spray

### 15 Regulatory information

- **Canadian substance lists**
  - **Canadian domestic substance list (DSL):**
    All ingredients are listed.
  - **Canadian ingredient disclosure list (limit 0.1%):**
    None of the ingredients is listed.
  - **Canadian ingredient disclosure list (limit 1%):**
    34590-94-8 dipropylene glycol monomethylether

- **Sara**
  - **Section 355 (extremely hazardous substances):**
    None of the ingredients is listed.
  - **Section 313 (specific toxic chemical listings):**
    None of the ingredients is listed.

- **TSCA (Toxic Substances Control Act):**
  All ingredients are listed.

- **Proposition 65**
  - **Chemicals known to cause cancer:**
    None of the ingredients is listed.
  - **Chemicals known to cause reproductive toxicity for females:**
    None of the ingredients is listed.
  - **Chemicals known to cause reproductive toxicity for males:**
    None of the ingredients is listed.
  - **Chemicals known to cause developmental toxicity:**
    None of the ingredients is listed.

- **Cancerogenity categories**
  - **EPA (Environmental Protection Agency)**
    None of the ingredients is listed.
Trade name: Maxx Spray

- **TLV (Threshold Limit Value established by ACGIH)**
  None of the ingredients is listed.

- **MAK (German Maximum Workplace Concentration)**
  None of the ingredients is listed.

- **NIOSH-Ca (National Institute for Occupational Safety and Health)**
  None of the ingredients is listed.

- **National regulations**
- **Other regulations, limitations and prohibitive regulations**
- **Please note:**
  The information herein is presented in good faith and believed to be accurate as of the effective date shown above. However, no warranty, express or implied is given. Regulatory requirements are subject to change and may differ from one location to another. It is the buyer’s responsibility to ensure that its activities comply with Federal, State or provincial, and local laws. The following specific information is made for the purpose of complying with numerous laws and regulations.

- **Other information:** The product has been designed for professional use only.

### 16 Other information

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

- **Date of preparation / last revision** 02/16/2015 / 1

- **Abbreviations and acronyms:**
  - ADR: Accord européen sur le transport des marchandises dangereuses par Route (European Agreement concerning the International Carriage of Dangerous Goods by Road)
  - IMDG: International Maritime Code for Dangerous Goods
  - DOT: US Department of Transportation
  - IATA: International Air Transport Association
  - ACGIH: American Conference of Governmental Industrial Hygienists
  - EINECS: European Inventory of Existing Commercial Chemical Substances
  - ELINCS: European List of Notified Chemical Substances
  - CAS: Chemical Abstracts Service (division of the American Chemical Society)
  - HMIS: Hazardous Materials Identification System (USA)
  - WHMIS: Workplace Hazardous Materials Information System (Canada)
  - LC50: Lethal concentration, 50 percent
  - LD50: Lethal dose, 50 percent
  - Eye Dam. 1: Serious eye damage/eye irritation, Hazard Category 1

- * Data compared to the previous version altered.*
