MATERIAL SAFETY DATA SHEET

TRADE NAME: Neutral Disinfectant Cleaner
CHEMICAL FAMILY: Quaternary ammonium compound
EPA Registration Number: 10324-154-83914

NFPA HAZARD SUMMARY (0-4 Scale)
Health: 3 Flammability: 0 Reactivity: 0 Special: N/A

HAZARDOUS INGREDIENTS
The materials listed in this data sheet are classified as HAZARDOUS in accordance with the definition set forth by the Occupational Safety and Health Administration in 29 CFR 1910.1200.

EMERGENCY FIRST AID PROCEDURES
SKIN: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
EYES: Immediately flush eyes with water for 15-20 minutes, while holding eyelids open. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes. Seek medical attention at once.
INHALATION: If symptoms are experienced, move victim to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.
INGESTION: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.

FIRE AND EXPLOSION DATA
FLASHPOINT: >200°F (Tag CC) N/A
FLAMMABLE LIMITS: (LEL) N/A (UEL) N/A
AUTO IGNITION TEMP: N/A

EXTINGUISHING AGENTS: Dry chemical, foam, carbon dioxide, water fog or any other agent suitable for surrounding fire.

SPECIAL FIRE FIGHTING PROCEDURES: Firefighters should wear full protective clothing including self-contained breathing apparatus. Cool fire exposed containers with spray.

UNUSUAL FIRE AND EXPLOSION HAZARDS: Irritating and toxic gasses or fumes may be released during a fire. Combustion products are toxic.

REACTIVITY DATA
STABILITY: Stable
HAZARDOUS DECOMPOSITION PRODUCTS: Carbon Monoxide, carbon dioxide and toxic hydrogen chloride vapor.
MATERIALS TO AVOID: Strong oxidizing agents, reducing agents

HAZARDOUS POLYMERIZATION: Will not occur.

### CHEMICALS LISTED AS A CARCINOGEN OR POTENTIAL CARCINOGEN

- OSHA: NO
- IARC Monographs: NO
- NTP: NO

### HEALTH HAZARD DATA

**SKIN:** Causes corrosive burns. Brief exposure may cause irritation and defatting of the skin. Exposure not promptly washed off may lead to toxic effects similar to ingestion. Harmful if absorbed through skin.

**EYES:** Causes burns and may result in permanent injury to eyes including blindness.

**INHALATION:** Mists and vapors can irritate the throat and respiratory tract. High vapor concentrations may cause central nervous system effects. Symptoms may include headaches, dizziness, drowsiness and death. Harmful if inhaled.

**INGESTION:** Ingestion can cause gastrointestinal irritation, swelling of the larynx, difficulty in breathing, circulatory shock, convulsions and possibly death.

### MEDICAL CONDITIONS GENERALLY AGGRAVATED BY EXPOSURE

None are known.

### PERSONAL PROTECTION DATA

**Respiratory Protection:** NIOSH/MSNA approved respirator if irritation is experienced.

**Eye Protection:** Chemical goggles

**Protective Gloves:** Rubber or neoprene

**Other Protective Equipment:** None

**Ventilation:**
- Mechanical
- Local
- Explosion proof exhaust ventilation

**SPECIAL PRECAUTIONS**

Store in a cool area away from oxidizing agents. Keep from freezing. Do not handle or store near an open flame, heat or other ignition sources.

### SPILL OR LEAK PROCEDURES

Isolate spill or leak area immediately. Keep unauthorized personnel away. Stay upwind. Keep out of low areas where vapors may accumulate. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Ventilate closed spaces before entering. All equipment used when handling the product must be grounded. Floor will be slippery. Do not touch or walk through spilled material. Stop leak if you can do it without risk. Prevent entry into waterways, sewers, basements or confined areas. Absorb or cover with dry earth, sand or other non-combustible material and transfer to containers. Use clean non-sparking tools to collect absorbed material. Large spills should be diked far ahead of the liquid spill and pumped into containers for disposal.

### DOT SHIPPING INFORMATION

Disinfectant Liquid Corrosive, NOS (Quaternary Ammonium Compound), 8, UN1903, PG III

N/A = Not Applicable
NFPA = National Fire Protection Association
