MATERIAL SAFETY DATA SHEET
FOR CHEMICAL EMERGENCY: Spill, Leak, Fire, Exposure or Accident CALL CHEMTREC DAY OR NIGHT 800-424-9300.

SECTION 1 - CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

PRODUCT NAME: LIQUID-SOFT
24-hr. Emergency #: (800) 424-9300
US D.O.T. Hazardous Materials Registration No.: 062504-001-008MO
Commercial & Government Entity (CAGE) Code: 0YCK6

CHEMICAL NAMES & SYNONYMS: N/A
FORMULA: Proprietary
CHEMICAL FAMILY: SOFTENING AGENT
SUPPLIER’S NAME: Fabriclean Supply of Kansas, LC
SUPPLIER’S ADDRESS: 14400 W. 97th Terrace
SUPPLIER’S CITY, STATE, ZIP: Lenexa, KS  66215
SUPPLIER’S TELEPHONE: (800) 832-0096

SECTION 2 - INGREDIENTS

INGREDIENTS PERCENT ADOPTED VALUES

(Note: The exact composition of this product, with respect to the percentages of its' reported ingredients and the presence of its' non-regulated ingredients [not reported], is proprietary information and is being withheld. In the event of a medical emergency, total disclosure will be made to the proper authorities.)

SECTION 3 - HEALTH HAZARDS IDENTIFICATION

Threshold Limit Value: As indicated in Section 2 (above).

Primary Routes of Entry: Eye/skin contact. Inhalation. Ingestion.

EFFECTS OF OVEREXPOSURE: EYES: Extreme irritant to eyes. SKIN: Prolonged/repeated contact will cause drying, cracking, de-fatting, dermatitis and irritation. Persons with pre-existing skin disorders may be especially susceptible. May cause allergic skin reaction. High concentrations of vapors can also cause irritation. INHALATION: Can cause drowsiness. Causes irritation of mucous membranes at exposures of 400 ppm for 3 - 5 mins. Extreme overexposure can cause unconsciousness and death. INGESTION: Causes diarrhea, nausea, vomiting, cramps, gastrointestinal irritation. May aggravate preexisting liver and kidney conditions.

SUPPLEMENTAL HEALTH INFORMATION: Pre-existing eye, skin and respiratory disorders may be aggravated by exposure.

SECTION 4- FIRST AID MEASURES

EYES: Object is to flush material out of eyes immediately, then seek medical attention. Immediately flush with plenty of water for at least 15 minutes while holding eyelids open to ensure flushing of the entire eye surface. Get medical attention.

SKIN: Immediately wash contaminated areas with plenty of water for at least 15 minutes. Remove contaminated clothing and footwear and wash clothing before reuse. Discard footwear, which cannot be decontaminated. Seek medical attention if symptoms develop or persist.

INHALATION: Remove to fresh air; if breathing is difficult, have trained personnel administer oxygen. If respiration stops, give mouth-to-mouth resuscitation. Get immediate medical attention. (Note: Coughing, sneezing or other symptoms of upper respiratory irritation may serve as a warning of exposure to high airborne concentrations.)

INGESTION: DO NOT INDUCE VOMITING! Rinse mouth with water; give large quantities of water or milk to drink. If vomiting occurs spontaneously, keep head below hips to prevent aspiration. Give more liquids. Do not give anything by mouth to an unconscious or drowsy person. Get immediate medical attention. (Because rapid absorption may occur through lungs if aspirated and cause systemic effects, the decision of whether to induce vomiting or not should be made by a physician.)

SECTION 5 - FIRE & EXPLOSION HAZARDS / FIRE FIGHTING MEASURES

Flash Point: <100 deg. F for component. Flammable Limits: 2% lower, 12% upper for component.

Extinguishing Media: Small Fires: Dry chemical, CO2, Halon, water spray or alcohol foam. Large Fires: Water spray, fog or alcohol foam is recommended.

Special Firefighting Procedures: Keep unnecessary people away; isolate hazard area and deny entry. Stay upwind; keep out of low areas. Self-contained breathing apparatus (SCBA) and structural firefighter's protective clothing will provide limited protection. Move containers that are exposed to flames if safe to do so. Spray other containers from side until well after the fire is out.

Unusual Fire & Explosion Hazards: Flammable/combustible material may be ignited by heat, sparks or flames. Vapors may travel to a source of ignition and flash back. Container may explode in heat or fire. Vapor explosion hazard indoors, outdoors, or in sewers. Runoff to sewer may create fire or explosion hazard.

MATERIAL SAFETY DATA SHEET

MSDS/LIQUID-SOFT, PAGE 3, SECTION 13 CONT.

Waste Disposal Methods: Recover material or dispose (incineration is preferred) in accordance with all applicable Federal, State and local regulations. Material collected with absorbent may be disposed in a permitted landfill in accordance with all Federal, State and local regulations. Empty containers may retain vapor or product residue. Observe all labeled safeguards until container is cleaned, reconditioned or destroyed.

All regulations must be reviewed to ensure compliance with any procedures or chemical requirements not herein mentioned or which may vary from the procedures herein described.

SECTION 14 - TRANSPORT INFORMATION

Proper Shipping Name: Liquid fabric softener

Hazard Class: N/A

UN#: N/A

Packing Group: N/A

Sticker Required: N/A

SECTION 15 - REGULATORY INFORMATION

(Notice: The information herein is presented in good faith and believed to be accurate as of the effective date shown below. However, no warranty, expressed or implied is given. Regulatory requirements are subject to change and may differ from one location to another; it is the buyer’s responsibility to ensure that its activities comply with federal, state or provincial, and local laws. The following specific information is made for the purpose of complying with numerous federal, state or provincial, and local laws and regulations.)

Isopropyl alcohol is regulated under the following:

Department of Transportation.
OSHA.
Canada’s WHMIS Act as isopropanol.
Isopropyl alcohol is not listed as a NTP, IARC or OSHA carcinogen.
Isopropyl alcohol is listed under OSHA Subpart Z.

SECTION 16 - OTHER INFORMATION

AS A GENERAL RULE, PREVENT AND PROTECT THIS PRODUCT FROM UNAUTHORIZED USE

FOR INDUSTRIAL USE ONLY !!!!!!

END OF REPORT

In accord with the philosophy established by the Occupational Safety and Health Administration's Hazard Communication Final Rule, 1985, this Material Safety Data Sheet has been designed to emphasize the hazardous portions (ingredient[s]) utilized in the total formulation. As a result, the information herein stresses the most hazardous component(s) only. By this approach, we feel better knowledge and awareness should substantially contribute to reduce exposure and injury to workers involved with the use of this product. The information supplied in this document is presented for exactly this purpose. As required by law, this data should be thoroughly read and made available to anyone who may be responsible for handling this material. All data provided relates to the concentrated product as shipped. Actual usage rates and further dilution will, in most cases, greatly reduce, if not eliminate, the potential for worker injury. Any and all chemical products should be handled with extreme care and only by authorized and informed personnel. Each aspect of your operation should be examined to determine if, or where, additional precautions may be necessary. All health and safety information contained in this MSDS should be provided to your employees or customers. It is your responsibility to use this information to develop appropriate work practice guidelines and employee instructional programs for your operation.

The information and recommendations provided in this Material Safety Data Sheet have been obtained from data we believe to be reliable. We provide no warranties, expressed or implied, or accept no responsibility for loss associated with the use or handling of this product. This information is offered for your review and consideration. Efforts should be extended to determine the applicability of this product for your specific intended use. We know of no medical condition, other than those noted in this Material Safety Data Sheet, which are generally recognized as being aggravated by exposure to this product.
