

# TarGo<sup>®</sup> EF

**ENVIRONMENTALLY  
FRIENDLY OILY STAIN  
REMOVER**

## TarGo<sup>®</sup> EF

TarGo<sup>®</sup> EF is tougher than ever on stains, yet as easy as ever on the environment. And it now flushes freely in hydrocarbon.

TarGo EF, the best P.O.G. for alternative solvents, is now even better at removing oil-based stains. You'll see the difference on the toughest oxidized oils, greases, inks, etc.

With hydrocarbon, simply apply TarGo EF and toss it into the wheel for trouble-free flushing and easy stain removal. TarGo EF can also be used most effectively on the spotting board in coordination with whatever system you're using.

TarGo EF contains no chlorinated solvents, so it's virtually odor free, and it meets California's tough V.O.C. and Prop 65 regulations.

When drycleaning with Perc, use TarGo<sup>®</sup> Dry to remove oily stains. For laundry or wetcleaning, use Laundry TarGo<sup>®</sup>.

### **DIRECTIONS**

Before starting, read and understand the TarGo EF Material Safety Data Sheet.

**On the SPOTTING BOARD:** Apply TarGo EF directly to stain. Work in thoroughly until stain loosens. Flush with wet steam, then dry with air gun. Repeat if necessary.

**When drycleaning with HYDROCARBON:** Apply TarGo EF directly to stain. Let it sit on the stain for up to 15 minutes, then dryclean. On more difficult stains, follow Spotting Board directions above.

- ▶ TarGo EF is safe for use on most colors and fabrics. Test on hidden area of garment before using on delicate colors or fabrics.
